1. INTRODUCTION

Dear brothers and sisters:

We are witnessing the compliance of the prophecies given by Our Lord Jesus Christ, Our Blessed Mother and Saint Michael Archangel to Luz de Maria, which mention the arrival of plagues, pests and diseases. Many of them have been created by the evil use of science and by men himself, and scientists will not be able to find a cure for them.

Luz de María told us in the commentary to the Message given on June 9, 2016 by Our Lord Jesus Christ, the following:

“...we are warned as to the great imbalance that exists because of the manipulation of a group of people. They have devoted themselves for years now to deciding the fate of Humanity on the earthly plane. We will be invaded by constant plagues and illnesses spread all over the Earth, with the aim of reducing the world population. The war will be more overt.”
”

We are living the time of proliferation of pests and plagues, that will turn into pandemics, but Heaven does not abandon us and Our Blessed Mother, since 2009, has given us indications to treat the different diseases that will appear in this time, as well as the recommendations to treat them and strengthen our organism.

In this document, we have classified the plants according to their properties and the indications given by Our Blessed Mother, regarding how they favor and strengthen some systems of the human organism, to facilitate their understanding and application for an appropriate use.

Certain medicinal plants recommended by Our Blessed Mother include indications of doses, ways of use and contraindications; nevertheless, in most cases, the Blessed Mother only mentions the plant, leaving to each of us the responsibility to investigate their particular use, to complement the knowledge of each plant and remedy given by Heaven. Each one must analyze its health situation (or that of the person to which it recommends the plants) and take into consideration allopathic medications (pharmacological treatments) used, to avoid interference or intoxication due to the combination of substances. On the other hand, it is also important to consider medical conditions, such as autoimmune diseases for which the use of certain plants is not recommended. Due to the above, a thorough investigation of each plant must be performed, which includes consulting a physician.

Another important aspect to take into consideration is that some plants recommended by Heaven do not count with scientific studies to support their properties and uses, nevertheless, being indicated by Our Blessed Mother and Our Lord Jesus Christ, the Divine Wisdom and Science transcend human knowledge and in faith we trust in Heaven's indications for the wellness of each of its Sons. Additionally, with loving insistence, Our Lord tells us to use the medicines His Will has given us.

Children, My Mother has given you the medicines of Our Will. You continue to seek what is human and not what we have given to man by Divine Will. Do not expose yourselves unnecessarily, be cautious and do not expose yourselves: instead, pray in your homes at the moment. Our Lord Jesus Christ, 03.20.2020.

Following we mention some messages of alert from Heaven, telling us about the appearance of diseases, pests, plagues and pandemics.

Epidemics will multiply until they become pandemics; eradicated diseases are returning, just as man has eradicated Me and has chosen Satan as his god. At this, the elements rise in search of man, who is not living according to My Will. Our Lord Jesus Christ, 04.26.2019.

My Beloved People, many diseases are hanging over Humanity, and I mention this and bring it to your attention in order for you to protect yourselves. Viruses are swarming in the air and you must protect yourselves; that is why My Mother has given you and will continue to give you the necessary natural medicines so that you put them into practice, because some viruses have been deformed in laboratories so that they do not react to human medicine. It will be then that unbelievers, having to make use of everything found in Nature and that My Mother has mentioned to you, will see with surprise how their health, if it is Our Will, is restored. I see others of My children worrying too much, more than necessary, over what is material, when before you plagues are looming that can exterminate entire peoples." Our Lord Jesus Christ, 11.20.2018.

"I call you to unite, to unify and intensify fraternity; I call you to compile the Messages in which My Mother or I have given you the natural medicines necessary for you to face the great pestilences, plagues, diseases and chemical contaminations to which you, as Humanity, will be exposed, because it is not only Nature that rebels against man, but also those who, with petty and selfish interests, have conspired to exterminate much of Humanity." Our Lord Jesus Christ, 10.10.2018

"Great diseases are spreading quickly and when they become known through the medical media, no longer able to hide them, it will be what My Mother has revealed to you for some diseases that will stop them, but in the midst of everything the creature's Faith is needed" Our Lord Jesus Christ, 05.17.2017

"Some of My children have not been through hard times, they do not know the face of hunger, they do not know the face of repression, they do not know the face of despair at not having what is necessary to control pain. My Mother has given and will give you medicines that you can find in Nature and with them mitigate diseases and make them disappear. Do not save them until you have to use them; look for where they are, look for where you can find them near you - do not wait until the last minute. Plague is moving silently, without being unveiled before the eyes of humanity. You have the means and more in order to fight it. I do not forsake my people." Our Lord Jesus Christ, 08.03.2017

4.5 Do not expose to the outdoors and use Good Samaritan Oil

My children are suffering more frequently from respiratory diseases, which increase, being recurrent and requiring long treatment.

Children, have you not asked yourselves why it is that you should be weaker faced with respiratory diseases?

Exposure to drastic changes in the climate greatly contributes to your bodies' being exposed to respiratory complications, but at the same time the hand of man is implicit, spreading chemicals and viruses through the air so that you fall sick more frequently, and these sometimes become mortal for human beings. Faced with this, you should protect yourselves in order to minimize exposure to white trails when they cover

the atmosphere. At the same time, spray the oil of the Good Samaritan on what you have chosen to protect your nose and mouth.

Sick minds of powerful nations are the demons that spread the disease on My children in airplanes. Shut your homes and do not expose yourselves to the open air when you see strange forms in the atmosphere.”

If you find yourselves sick, sprinkle the food with holy water and keep in mind the use of the medicinal plants My Mother has indicated you use for these unexpected circumstances. Be creatures firm in faith, knowing that being endowed with reason and intelligence, you consciously obey the guidelines that the leaders of your countries indicate to you. My call is to remain alert. In this moment, humanity is threatened by illness. So at this time, you should protect and help one another with authentic love and with mercy, caring for your brothers/sisters as much as is possible, in the same way that you care for yourselves, and remain in your homes when your countries are being threatened by some epidemic. If, at this moment, you are not suffering from nature's attacks, from diseases, or from hunger, do not be indifferent toward those that are suffering, since no nation can assure it will not suffer these calamities at some moment. The cold-heartedness and indifference before suffering is an example of the estrangement that man maintains with My House. The Christian accompanies, suffers, and rejoices with his /her neighbor, because he/she knows that a neighbor is the image and likeness of his /her Creator. Our Lord Jesus Christ, 05.2009

Recommendations:

- If available, use therapeutic degree essential oils, prepared in specialized laboratories to guarantee the pureness of the essences.
- For a better absorption of the Good Samaritan Oil, use as base oil liquid coconut oil or grape oil, which favor penetration of the oil in the skin.
- Elaborate in a cool place, without exposing the oils to direct light.
- Wear gloves and use a glass bowl.
- Test the mix on your forearm, wait 25 minutes. If skin reddens, wash with plenty of water or apply lavender oil, and little by little the redness will disappear. When this effect happens, add more of the same base oil with which the mixture was prepared. Do not expose the oils to the air for a long time; keep them in a tightly closed amber color glass

container to prevent them from volatilizing and evaporating. They should be kept out of the reach of children.

Dosage and application:

Before each use move the container softly so the oils get mixed. Apply and rub a few drops directly on the temples, throat, behind the ears, underarms, abdomen, joints, or full foot sole. To purify the air and remove viruses from the environment, home or office, use a diffuser, spray or pan of boiling water with a few drops.

Another way to use: in a piece of cloth, handkerchief, dust mask or cotton balls put 3 to 4 drops of oil and place over the mouth.

Contraindications:

Do not use an essential oil directly on the skin without first diluting it in a base oil. Oils on their own are irritants and must be carefully handled. For sensitive skin, apply only on foot sole. It is not recommended for children under 3 years of age. Pregnant women: ask a professional about the negative effects of the essential oils.

Note: The recipe that the Mother has given us uses pure essential oils. If these cannot be found, you can get the corresponding herbs for each essential oil and find a way to extract them in order to mix them. Although concentration is not equal to that of essential oil, given that a distillation process is not used, it can be helpful when essential oils are not available, but not as effective as essences. Essential oils can be found in specialized stores or macrobiotic stores. In every country you can find the essences to prepare the mixture. **It is recommended to stay in prayer during the preparation of the oil and to have faith in the Divine Recommendations.**

(2) The quantity of the head of a pin on the earlobes means a very small quantity.
